

## ENGAGEMENT SKILLS TRAINER (HEAVY/LIGHT)

LOCATION	Two Systems located in two buildings on Keeton Trail.
DESCRIPTION	The EST 2000 is a laser-based unit/institutional, indoor, multipurpose arms trainer for 10 individual and crew served weapons including pistols, rifles, shotguns, machine guns, antitank weaponry and grenade launchers. The system displays targets, terrain and weapons effects in a real time presentation on a screen 26 feet from the firer. The firing Soldier experiences an approximation to the actual weapon's sound, weight and recoil.
AVAILABLE WEAPONS	The EST 2000 can train ten (10) Soldiers simultaneously using simulated weapons systems (M9, M16/M4, M203, M249, M240B, MK-19, M2, AT4 and M1200).
LATRINE FACILITIES	Yes. Located between the EST (Light) building and the Multipurpose building.
CLASSROOM	Yes. Multipurpose Building.
COMMUNICATIONS TO RANGE CONTROL	Establish communication with Range Control when occupied and maintain communications on the hour.
RESTRICTIONS	Units are required to ensure there are an adequate number of personnel certified to operate the EST prior to the unit's scheduled training date. Operator's certification training must be requested through Range Control.  See EST SOP for additional restrictions.

REMARKS	<p>There are three (3) types of training provided with the EST System:</p> <p><b>Marksmanship (10 Lane).</b> Includes all standardized training tables for all supported weapons systems.</p> <p><b>Collective (10 Lane).</b> Provides a wide range of scenarios to support a host of collective tasks. This training type is an effective tool for the enhancement of communication skills, command and control, and fire control and distribution.</p> <p><b>Shoot—Don't Shoot (5 Lane).</b> Provides situational target discrimination exercises to place the Soldier in circumstances that require judgment in the application of deadly force.</p>
